

The Deadly Dance of the Virus

This tiny virus which you cannot even see with your naked eye is a real danger.

Virus is mutating very fast; talk of 3rd wave & 4th wave

Economy & livelihoods severely affected

16.2 Crore infected in the world ; 33 lakh have died

2.4 crore cases in India; 2.5 lakhs have died; 2000 deaths in Assam

In Assam - cases have risen more than 50 times in 1 month; 58 cases - 1 April and 3453 on 1 May; need to control the spread

What We Can Do to Stop the Virus?

Temporary Measures

masking

hand washing

stay home

physical distancing

no crowds

lockdowns

Permanent Measures

covid vaccination (with booster?)
